

Call for Proposals: AAPHD Foundation Small Grant Program

The AAPHD Foundation was established to support the primary goals of the Association including:

- Promotion of effective efforts in disease prevention, health promotion and service delivery;
- Education of the public, health professionals and decision-makers regarding the importance of oral health to total well-being; and
- Expansion of the knowledge base of dental public health and fostering competency in its practice.

One exciting opportunity that the Foundation creates for its members is the AAPHD Foundation Small Grant Program.

The Small Grant Program is designed to stimulate innovative education or research projects that benefit dental public health and the public. The Foundation's guiding principles and funding areas of interest identify a broad array of topics for which support can be provided. These include, but are not limited to, studies or interventions designed to:

- Improve access to personal and population based oral health services
- Build and strengthen the dental public health workforce
- Translate science into practice
- Maintain competency in dental public health.

The program will provide "small grants" that serve as an incentive to individuals and entities to move science, policy, and practice to the "next step" toward enhancing oral health.

Priority will be given to:

- Applications from individuals who are at an early stage of their dental public health careers. We are especially interested in applications from residents in the DPH Residency programs who are completing their required research projects and from members of Student Chapters.
- Applications that seek to utilize and enhance partnership with existing programs, projects, and organizations.

Grant Program Requirements:

- Award recipients must be members of AAPHD.
- The funding activity has a limited duration, up to one year. However, a non-funded extension may be granted for one additional year in order to complete the project.
- The recipient(s) will be required to submit a mid-year brief report and a final written report to the Foundation. The final report should include a financial and

program summary of the project's results. **The final report must be submitted within 60 days of completion of the one-year project.**

- **The recipient must present a poster at the National Oral Health Conference upon completion of their project.**
- Travel costs to the annual meeting will be at the expense of the award recipients.

Award Budget:

Grants of up to \$5,000 will be awarded. The grant will not pay institutional indirect costs, Principal Investigator's salary, or patient care costs. The grant may be paid directly to individuals, institutions or sponsoring organizations upon receipt of a detailed budget plan.

Grant Program Timeline:

December 15, 2016 – Proposals Due

December 15, 2016 – February 14, 2017 -- Proposal Review

February 28, 2017 – Announce/Inform Grant Recipients

Foundation Grant Recipients will be recognized during the AAPHD Awards Ceremony at the National Oral Health Conference and in the NOHC Program. Small grant recipients are encouraged to attend the Award Ceremony.

Application Format and Submission: The application format includes a short proposal that is no more than five pages (excluding Biosketches), using Arial or Times New Roman font, 12 pt size, single space. The proposal should include the following:

- A. Project Title
- B. Project Team
- C. Aims of the project and responsiveness to the Program goals
- D. Preliminary Studies, if applicable
- E. Methods and Materials
- F. Anticipated immediate outcomes and deliverables, and long-term consequences
- G. Budget. Budgetary items may not include PI salary or dental care for people.
- H. Key Personnel Biosketches

Submission Information: All applications should be submitted electronically to:

Sandi Steil
AAPHD Foundation
info@aaphd.org

For additional information, please call Julie Frantsve-Hawley, Executive Director, 847-999-4738 or jhawley@aaphd.org

Grant Review Process:

A review committee comprised of AAPHD Foundation Committee members or its designees will be convened to review the proposals. The review will be conducted electronically and recommendations will be made to the Foundation Committee as a whole for their final determination. The funding guidelines specified for the Foundation would serve as the primary and secondary review criteria.
